INTRODUCTION

This battery can be replaced to improve the computer's battery life. It should also be removed prior to making any repairs on your laptop.

Step 1 — Battery

- Position the laptop screen-side down as shown.
- In this position the battery housing will be located on the right hand side.

Step 2

- Lift the panel up and then out to gain access to the battery.

Step 3

- Use the indentations to pull the old battery out.

Step 4

- The battery is now removed and it is safe to move on to uninstalling other components.

To reassemble your device, follow these instructions in reverse order.
